

IS YOUR COMMUNITY PREPARED FOR WILDFIRE?

Is your neighborhood ready?

Twelve community meetings were held in October and November for the Santa Monica Mountains Community Wildfire Protection Plan (CWPP). Using detailed area maps, residents provided information and identified projects and priorities for each specific community. These communities will have an opportunity on January 9th to review the maps created and provide additional input. If you missed the earlier meetings, this is your opportunity to share what you want to see happen to make your community fire safe.

CWPP Fall 2009 Community Meetings Mapping Review
